For the safety of our employees and the public we serve, the following is a proactive plan of action for Macomb County Animal Control (MCAC). MCAC is advising the public and all employees to take extra measures to mitigate the short and long-term effects of the COVID-19 pandemic. These measures include protecting themselves properly and to follow the CDC Guidelines to reduce the risk of spreading the virus, as well as working to manage our current animal population and minimize the number of new animals and residents entering our facility.

As members of the public safety community we have an obligation to perform our duties during disasters. - Pre-approved adoptions by appointments
- Owner requested euthanasia by appointment
- Temporary suspension of our Community Cat Program (TNR)
- Removal of deceased domestic animals only
